Q1. My laptop is very slow. What can I try?

Restart it (many issues come from weeks without a reboot), close browser tabs, check that disk space is above 15 percent, and install pending updates. If that fails, book a hardware check.

Q2. How do I get a replacement laptop charger?

Collect one from the IT desk on any floor, or raise a hardware request for delivery.

Q3. Can I use a personal USB drive?

No. USB storage is blocked on company laptops. Share files through the company drive instead.
